Party Never Would Have Chosen Him Had He Not Gone to the People, He Asserts-Prophesies His Election.

Buffalo, Oct. 26 .- Addressing an audience of several thousand people in the Broad-Arsenal here to-night, Job E. Hedges, Republican candidate for Governor, answered William Sulzer, the necratic nominee, who declared that Hedges was owned and controlled by William Barnes, jr. Mr. Hedges said specifically that neither Barnes nor any ther man controlled his mental or solitical action, and that Sulzer knew it. He asserted also that the bosses knew ther could not control him, and would not be foolish enough to try when he became Governor. At this declaration the offence laughed and cheered loudly Mr. Hedges had reason to feel pleased

with his reception here. His audience was large and enthusiastic, although this Progressive organization in the state, and dispite a big counter attraction by the Mr. Hedges's speech to-night was a frank

"I went after it," said he, amid cheers, "and stirred up a sentiment that they could not defeat without defeating the

Salzer's speech in which the Democrat talled Hedges a creature of Barnes, whom characterized as "the proudest, most puffed up, prejudiced, defiant and arrogini boss of our times." Of this Mr.

I had hoped it was possible for my lend Suizer to go through the campaign full charge of his mental and mora sculties. When Suizer says that he says heulites. When Suizer says that he says what I believe does not represent his candid judgment, and that it is a statement for political effect rather than to represent the fact. My nomination at saratoga was the result of a pre-convenion campaign, conducted in the openion man fashion and in a wholesome manner. Had any one been nominated ther than myself his nomination would have been without effect, because it would have been interpreted as an action re-publishing the open campaign which I had conductd.

had conductd.

I eliminated political hypocrisy from the Saratoga convention. Mr. Sulzer knows that no man controls my mental or political action. William Barnes, jr., knows it. Every other leader in the Republican party knows it. If they do not know it. Is erve notice on them now that I will be Governor, free from preliminary promise, without any obligation to any man, and with a commission from the people of the state to be Governor, guided by the oath of office which I expect to take. Hedges didn't let Straus off so easily to-night as he has at other times.

He said the Progressive candidate was talking "silly nonsense" about bosses, which showed that he would be unable to meet the very problems he was talk ing about, adding:

His only political experience has been receiving political honors and emoluments from the hands of men whose politics he now repudiates.
